

A POSITIVE STEP FORWARD ON 2/8/2020

Many Positively Waiting events are not open to the public, but we are participating in one on **Sat. Feb 8, 2020** that is! It is an ALL DAY parent/youth conference that will include both our *Porn-Resistant Brain* and *Sexual Self-Control* workshops. Other knowledgeable speakers will address CA's new sex education guidelines, sex trafficking, cyberdangers and how to discuss gender-related issues. It's a chance to become informed about a variety of cultural topics all at once. Jim and Karen Kropf are keynote speakers. We will explain how we went from *reluctantly* to **POSITIVELY** waiting.

The host is Our Savior Lutheran Church of Arcadia, meaning topics **will be presented from a biblical worldview**. Even if that's not your cup of tea, this event will be an extraordinary confluence of well-informed, caring people who want to help your family survive and thrive. The cost of the event *including LUNCH AND DINNER* is **\$25 per person**. The target demographic is youth 13+ and any parent or concerned adult. For more information and to register online go to Lovefest-Arcadia.com

Cost per person is \$25
(includes both lunch and dinner!)

Register online at Lovefest-Arcadia.com

YES!

Youth

Will LoveFest'20 be more practical than just "DON'T HAVE SEX!"?

Will LoveFest'20 help me discuss my views on delicate topics like gender fluidity and same sex attraction?

Parent

Pastor

Will LoveFest'20 expand my ability and desire to speak God's truth in love?

SHE WON'T EVEN HAVE TO LEAVE HER SCHOOL!

In December, LAUSD announced it is partnering with Planned Parenthood (the world's largest abortion provider) to create "Wellbeing Centers" ON HIGH SCHOOL CAMPUSES. According to the announcement, these Wellbeing Centers will provide:

"Social, emotional, and sexual health services." Meaning, 1) promoting sexual activity (with condoms and birth control) among adolescents; 2) encouraging teens to act on their attractions regardless of the imprinting it may cause on all future sexual behavior and preferences; 3) potentially undermining any religious and moral counseling which takes place in the home.

(CONT.)

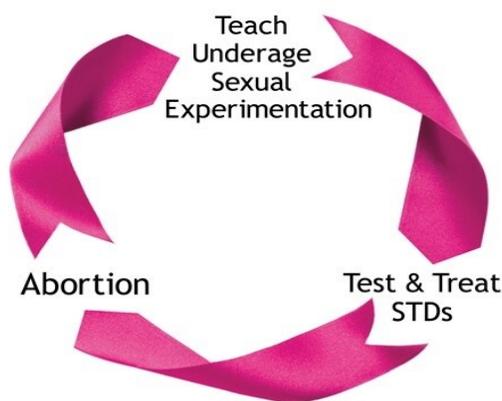

"Pregnancy options counseling." Planned Parenthood SELL ABORTIONS. Their factsheets say adoption is only 3% of their services. Which "pregnancy option" do you think your daughter will be presented with?

"Another set of caring adults to whom they can come with those strange life questions." Meaning people trained to sell abortions, provide birth control, STD treatments and/or hormone therapy without parental consent or notification, and with the aim of creating a sustained connection to Planned Parenthood. This organization has been recorded gushing over donations to be used specifically to terminate babies of color, and video-documented selling fetal parts, and facilitating the exploitation of minors by pimps, sex-traffickers and pedophiles.

Without a doubt, the people who think this partnership is a good thing are already engineering ways to bring these "wellbeing" centers to YOUR local high school next.

Express your opinion before its too late.

Planned Parenthood never teaches women about *this* cycle...

COACH'S CORNER

Typically we use this corner of the newsletter to encourage conversations that will help parents become the First Best Source for Information about sex.

This month is no different, although the subject will be more difficult.

There is a mountain of scientific data which indicates a woman's risk of breast cancer increases as much as 44% if she has an Induced Abortion (as opposed to a miscarriage.) The chance that your OBGYN or pediatrician will pass along this information is extremely small, so if your daughter/sister/partner is going to make informed decisions about her healthcare — you may be the only person who tells her the truth.

There is an article and links to the data at positivelywaiting.com under the tab "Fast Facts."

As always, we do NOT recommend telling younger children about your previous abortion decisions (unless you're asked a direct question — *never lie!* Your credibility in this arena is too precious.). Until their brain's reasoning center is developed, most children will just be overwhelmed trying to process the death of a sibling. They can't understand all the factors which may have contributed to that decision in your past. Better to wait until for some life experience and cognitive development.

If you need help to start this discussion, or have questions, please contact me at justask@positivelywaiting.com or call our NEW business number (818) 488-1337.

Improve your coaching confidence by attending **Lovefest'20: Rooted on Sat. Feb. 8th, 2020!**

WE APPRECIATE YOUR HELP!
